Louis XIV Style Grille: RR-203 04x08LT

<i>part number</i>	RR-203 04x08LT	<i>to cover duct size</i>	04" x 08"	<i>finishes available</i>	13
<i>UPC Code</i>	731236368519	<i>outside height</i>	6"	<i>weight / shipping weight</i>	.5lb / 3lbs
<i>style</i>	Louis XIV	<i>outside width</i>	10"	<i>thickness</i>	.4"
<i>material</i>	Urethane Resin	<i>inside height</i>	3-3/8"	<i>predrilled screw holes/ Screws</i>	4 /4
<i>function</i>	HVAC Grille	<i>inside width</i>	7-3/8"	<i>Free air flow</i>	15.7 sq inch
<i>placement</i>	Wall / Ceiling	<i>frame width</i>	1-5/16"	<i>price</i>	\$64

<i>Material Technical Overview</i>	<i>Tensile Strength</i>	<i>Flexural Strength</i>	<i>Compressive Strength</i>	<i>Heat Deflection</i>	<i>Shore D Hardness</i>
Urethane Resin	7,660 psi	10,230 psi	11,400	180 degrees F	80

Beaux-Arts Classic Products' grilles are designed for wall and ceiling use only, and **not suitable for floor use**. They are virtually maintenance free, cast from an exterior grade urethane resin. They are also quiet, since resin doesn't vibrate. In addition resin won't rot, rust, corrode or grow mold.

Each grille is offered in 11 different finishes. Most of our finishes starts with a thin plate of either a metallic powder as in Rubbed Bronze, Dark Bronze, Antique Brass, Aged Copper, Nickel and Pewter , or a pigment as in Chinese Red, Antique Cherry, Old Wood, Old Wood Gold, and Umber Gold. During the casting process the powders or pigments bond to the resin. This process is similar to powder coating, but uses a chemical bonding process rather than by an electro-magnetic charge . Then aging glazes or painted highlights are applied to create the specific look of each particular finish. Our unique finishing process not only creates great looking faux-finishes, but forms a tough durable finish for years to come.

Each grille is offered in 11 different finishes. Most of our finishes starts with a thin plate of either a metallic powder as in Rubbed Bronze, Dark Bronze, Antique Brass, Aged Copper, Nickel and Pewter , or a pigment as in Chinese Red, Antique Cherry, Old Wood, Old Wood Gold, and Umber Gold. During the casting process the powders or pigments bond to the resin. This process is similar to powder coating, but uses a chemical bonding process rather than by an electro-magnetic charge . Then aging glazes or painted highlights are applied to create the specific look of each particular finish. Our unique finishing process not only creates great looking faux-finishes, but forms a tough durable finish for years to come.

Urethane Resin	7,660 psi	10,230 psi	11,400	180 degrees F	80

Beaux-Arts Classic Products' grilles are designed for wall and ceiling use only, and **not suitable for floor use**. They are virtually maintenance free, cast from an exterior grade urethane resin. They are also quiet, since resin doesn't vibrate. In addition resin won't rot, rust, corrode or grow mold.

Each grille is offered in 11 different finishes. Most of our finishes starts with a thin plate of either a metallic powder as in Rubbed Bronze, Dark Bronze, Antique Brass, Aged Copper, Nickel and Pewter , or a pigment as in Chinese Red, Antique Cherry, Old Wood, Old Wood Gold, and Umber Gold. During the casting process the powders or pigments bond to the resin. This process is similar to powder coating, but uses a chemical bonding process rather than by an electro-magnetic charge . Then aging glazes or painted highlights are applied to create the specific look of each particular finish. Our unique finishing process not only creates great looking faux-finishes, but forms a tough durable finish for years to come.

material	Urethane Resin	inside height	11-3/8"	predrilled screw holes/ Screws	6 / 6
function	HVAC Grille	inside width	19-3/8"	Free air flow	138.8 sq inch
placement	Wall / Ceiling	frame width	1-5/16"	price	\$179

Material Technical Overview	Tensile Strength	Flexural Strength	Compressive Strength	Heat Deflection	Shore D Hardness
Urethane Resin	7,660 psi	10,230 psi	11,400	180 degrees F	80

Beaux-Arts Classic Products' grilles are designed for wall and ceiling use only, and **not suitable for floor use**. They are virtually maintenance free, cast from an exterior grade urethane resin. They are also quiet, since resin doesn't vibrate. In addition resin won't rot, rust, corrode or grow mold.

Each grille is offered in 11 different finishes. Most of our finishes starts with a thin plate of either a metallic powder as in Rubbed Bronze, Dark Bronze, Antique Brass, Aged Copper, Nickel and Pewter , or a pigment as in Chinese Red, Antique Cherry, Old Wood, Old Wood Gold, and Umber Gold. During the casting process the powders or pigments bond to the resin. This process is similar to powder coating, but uses a chemical bonding process rather than by an electro-magnetic charge . Then aging glazes or painted highlights are applied to create the specific look of each particular finish. Our unique finishing process not only creates great looking faux-finishes, but forms a tough durable finish for years to come.

Louis XIV Style Grille: RR-203 20x16LT

<i>part number</i>	RR-203 20x16LT	<i>to cover duct size</i>	20" x 16"	<i>finishes available</i>	13
<i>UPC Code</i>	731236368991	<i>outside height</i>	22"	<i>weight / shipping weight</i>	2.5lbs / 9lbs
<i>style</i>	Louis XIV	<i>outside width</i>	18"	<i>thickness</i>	.42"
<i>material</i>	Urethane Resin	<i>inside height</i>	19-3/8"	<i>predrilled screw holes/ Screws</i>	6 / 6
<i>function</i>	HVAC Grille	<i>inside width</i>	15-3/8"	<i>Free air flow</i>	187.7sq inch
<i>placement</i>	Wall / Ceiling	<i>frame width</i>	1-5/16"	<i>price</i>	\$229

<i>Material Technical Overview</i>	<i>Tensile Strength</i>	<i>Flexural Strength</i>	<i>Compressive Strength</i>	<i>Heat Deflection</i>	<i>Shore D Hardness</i>
Urethane Resin	7,660 psi	10,230 psi	11,400	180 degrees F	80

Beaux-Arts Classic Products' grilles are designed for wall and ceiling use only, and **not suitable for floor use**. They are virtually maintenance free, cast from an exterior grade urethane resin. They are also quiet, since resin doesn't vibrate. In addition resin won't rot, rust, corrode or grow mold.

Each grille is offered in 11 different finishes. Most of our finishes starts with a thin plate of either a metallic powder as in Rubbed Bronze, Dark Bronze, Antique Brass, Aged Copper, Nickel and Pewter , or a pigment as in Chinese Red, Antique Cherry, Old Wood, Old Wood Gold, and Umber Gold. During the casting process the powders or pigments bond to the resin. This process is similar to powder coating, but uses a chemical bonding process rather than by an electro-magnetic charge . Then aging glazes or painted highlights are applied to create the specific look of each particular finish. Our unique finishing process not only creates great looking faux-finishes, but forms a tough durable finish for years to come.

Louis XIV Foundation Vent: FV-203

<i>part number</i>	FV-203 Foundation Vent	<i>to cover vent size</i>	8" x 16"	<i>finishes available</i>	13
<i>UPC Code</i>	731236369486	<i>outside height</i>	14"	<i>weight / shipping weight</i>	6lbs / 15lbs
<i>style</i>	Louis XIV	<i>outside width</i>	20"	<i>thickness</i>	7/8"
<i>material</i>	Urethane Resin	<i>inside height</i>	7-3/8"	<i>mounting bolts with wing nuts</i>	2
<i>function</i>	HVAC Grille	<i>inside width</i>	13-3/8"	<i>free air flow</i>	73 sq inch
<i>placement</i>	Wall / Ceiling	<i>frame width</i>	2"	<i>price</i>	\$209

<i>Material Technical Overview</i>	<i>Tensile Strength</i>	<i>Flexural Strength</i>	<i>Compressive Strength</i>	<i>Heat Deflection</i>	<i>Shore D Hardness</i>
Urethane Resin	7,660 psi	10,230 psi	11,400	180 degrees F	80

This foundation Vent is made exclusively for foundations and crawl spaces to fit the typical 16" x 8" missing concrete block crawl space vent opening. These foundation vents consists of two separate parts, the frame which is attached to the foundation and the grille which is removable, both are cast from an exterior grade urethane resin that won't rot, rust, corrode or grow mold. The grille can be removed by unscrewing four knurled knobs, in order to seal off the foundation in cold weather months by inserting a sealing plate behind the grille, or to put in a fiberglass screen mesh behind the grille in the war weather months to allow ventilation in to the crawlspace. Therefore the homeowner can service these vents from the outside of the house without having to crawl into the crawl space. Each grille provides 73 square inches of ventilation with the fiberglass screen mesh installed. All installation hardware, plus sealer plate and fiberglass screen mesh is included. These foundation vents are easy to install in new construction and existing structures as well, plus they are virtually maintenance free. In addition they are available in two unique styles featuring either an Arts & Crafts style grille or a Louis XIV style grille.

Each foundation grille is offered in 11 different finishes. Most of our finishes starts with a thin plate of either a metallic powder as in Rubbed Bronze, Dark Bronze, Antique Brass, Aged Copper, Nickel and Pewter, or a pigment as in Chinese Red, Antique Cherry, Old Wood, Old Wood Gold, and Umber Gold. During the casting process the powders or pigments bond to the resin. This "cold-fusion" process is similar to powder coating, but uses a chemical bonding process rather than by an electromagnetic charge. Then aging glazes or painted highlights are applied to create the specific look of each particular finish. Our unique finishing process not only creates great looking faux-finishes, but forms a tough durable finish for years to come.
