Arts & Crafts Foundation Vent: FV-209

part number	RR-209 Foundation Vent	to cover vent size	16" x 8"	finishes available	13
UPC Code	731236368458	outside height	12-7/8"	weight / shipping weight	6lbs / 15lbs
style	Arts & Crafts	outside width	18-7/8"	thickness	5/8"
material	Urethane Resin	inside hole height	8-3/8"	mounting bolts with wing nuts	2
function	HVAC Grille	inside hole width	13-3/8"	free air flow	73 sq inch
placement	Wall / Ceiling	frame width	1-3/8"		

Material Technical Overview	Tensile Strength	Flexural Strength	Compressive Strength	Heat Deflection	Shore D Hardness
Urethane Resin	7,660 psi	10,230 psi	11,400	212 degrees F	80

This foundation vent cover is made exclusively for foundations and crawlspaces to fit the typical 16" x 8" missing concrete block crawlspace vent opening. These foundation vents consist of two separate parts, the frame which is attached to the foundation and the grille which is removeable. Both are cast from an exterior grade urethane resin that won't rot, rust, corrode or grow mold. The grille can be removed by unscrewing the four knurled knobs, in order to seal off the foundation in cold weather months by inserting a sealing plate behind the grille, or to put in a fiberglass screen mesh behind the grille in the warm weather months to allow ventilation into the crawlspace. Therefore, the homeowner can service these vents from the outside of the house without having to crawl into the crawlspace. Each grille provides 73 square inches of ventilation with the fiberglass screen mesh installed. All installation hardware, plus sealer plate and fiberglass mesh is included. These foundation vent covers are easy to install in new construction, existing structures and encapsulated crawlspaces. They are virtually maintenance free. They are available in three unique styles.
